

Item No. 230141 - Differential Temperature Controller

- » 4 sensor inputs
- » 1 relay output
- » System monitoring display
- » Energy metering
- » 2 year warranty

Dimensions

Engineering Description

Housing: Plastic, PC-ABS and PMMA

Protection type: IP 20 / IEC 60529

Ambient temperature: 32-104°F

Dimensions: 6.8" x 4.3" x 1.9"

Installation: Wall mounting, tank mounting

Display: System-monitoring for visualization of systems, 16-segment and 7-segment display, 8 symbols for indication of system status and operating control lamp

Operation: 3 push-buttons on front

Functions: Differential temperature controller with adjustable system functions: function control according to BAFA guidelines, system cooling function, operating hours counter, tube collector function, heat quantity measurement and pump speed control

Sensor inputs: 4 Pt1000 temperature sensors

Relay outputs: 1 semiconductor relay

Switching capacities: R1: 1 Amp @ 100-240 V

Standby power consumption: < 1 W

Connections
